-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Response to Amendment***

***Claim Rejections - 35 USC § 112***

Claims 1-7, 9, 11-12, 14-18, 20-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 2, 6, 9, 11, 14, 16, the phrase "that can be read" "can be updated" are not positive recitations and makes it unclear as to whether the product can be read or updated.

In claims 1, 2, 6, 9, 11, 14, the phrase "of a single type" is unclear. The single type needs to be defined.

Also in claim 1, it is unclear as to what "a subject information element " is since it appears to be different from information elements.

Claims 3-5, 7, 12, 15, 17, 18, 20-21 are also rejected for incorporating the deficiencies of their base claim.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 16 is rejected under 35 U.S.C. 102(b) as being anticipated by Fushimi et al. (U.S. Patent No. 5,475,598).

As to claim 16, Fushimi et al. disclose a data product that can be read by a computer or a map data processing apparatus comprising map data (see col. 4, lines 6-22) including map related information related to a map wherein points on roads constitute nodes and road portions extending between adjacent nodes are indicated as links (See col. 4, lines 33-67-col. 5, lines 1-19); information used to identify each of the nodes includes node position information related to latitude and longitude; and information used to identify each of the links includes a combination of the node position information related to the latitude and longitude of a node at one end of a target link and the node position information related to the latitude and longitude of a node at another end of the target link (See col. 6, lines 9-55).

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-7, 9, 11-12, 14-18, 20-21 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
